

KNIT, PURL, CROCHET and CHAT

RSVP/Questions: yarn@baveg.org

Our knitting & crochet club is open to new or experienced knitters.

Being vegan or vegetarian is not a requirement to join us, but we do require that you are supportive (i.e. no anti-veg discussions or attitudes will be tolerated). The vegan guideline applies to any food that may be consumed at the meetings, materials used in projects, and being supportive of the vegan community.

We're planning to meet twice a month at a private residence in Vallejo. Our current meeting time is 3 to 5 pm, on Fridays.

Since most of us are learning to knit for the first time, we have decided to learn the Continental method of knitting (as opposed to the more common American method of knitting). Join us and let's share/support each other as we learn to knit, for pleasure, sweaters for rescue chickens, and other projects that interest us.

Material List

1. Knitting Needles OR Crochet hook
 - a. Size 15 knitting needles ideal for beginners. Bamboo needles are the easiest to work with.
 - b. Crochet hook size 8 ideal for beginners
2. Yarn –
 - synthetic (polyester) or plant-based (cotton, bamboo, etc)
 - if you're using large needles, look for a "bulky" weight yarn (the yarn package will indicate what size needles to use it with)
3. Find a pattern to bring if not knitting a scarf or blanket.

Needed for future use:

- Embroidery needle
- Scissors
- Small tape measure

See photo for example of what a crochet hook and embroidery needle look like
